### Academic Credit

Any Confratute topic/strand can be taken for academic credit, earning you three (3) graduate credits for subject/course number and title. EPSY 5195: Workshop in Education or EPSY 5198: Curriculum Lab. Consult your plan of study to verify which Confratute course number you selected. If you are unsure, email Judith at judith.mathews@uconn.edu, or call 860-486-6013.

### Topic/Strand Selection and Product Development

Participants who register and pay for graduate credit will select a topic/strand as their “major” and work independently with their strand coordinator (instructor) to develop an independent project or product to fulfill the requirements for earning credit in either EPSY 5195 or 5198.

Daily attendance is required.

Guidelines for product development will be discussed in each strand and will be included in the information you receive when you arrive at Confratute. Complete the product and submit it to the strand coordinator (instructor) either during Confratute or before the October 1, 2020 deadline, to have your grade submitted to the Registrar. If you wish to have your coordinator (instructor) return your project, enclose an envelope addressed to you with sufficient postage. The cover page of your project should be a copy of your approved Management Plan, which is included in your participant packet. Should you need your grade submitted prior to October 1, 2020, please inform your strand coordinator (instructor).

### Registration Deadline – Monday, May 18

Academic credit registration and billing are separate from Confratute conference registration and billing. There is not an option to register for academic credit using the online conference registration form. Instead, consult the spreadsheet of Confratute Credit Topics*, select a topic/strand, then register and pay for academic credit on or before May 18. (Credit registration after the conclusion of Confratute is not accepted.)

### Register for Academic Credit

*Using the spreadsheet of Confratute Credit Topics ([https://giftedmasters.education.uconn.edu/wp-content/uploads/sites/3011/2020/03/Confratute_for_Credit_Topics_2020.pdf](https://giftedmasters.education.uconn.edu/wp-content/uploads/sites/3011/2020/03/Confratute_for_Credit_Topics_2020.pdf)), find the column with subject/course number from your plan of study (EPSY 5195 or 5198), then search for the class number that corresponds to the topic/strand you want to take for academic credit. For example, Enhancing Teaching of Thinking in Students, lists class number 2076 in the EPSY 5195 column and class number 2106 in the EPSY 5198 column.

Complete your course registration online [http://www.studentadmin.uconn.edu/](http://www.studentadmin.uconn.edu/) using your NetID and password. (**Note: the best way to search for a topic/strand is by class number.)

Because the system allows only one instructor of record for each course, don’t be confused when you see Joseph Renzulli as the instructor for EPSY 5195 and Sally Reis as the instructor for EPSY 5198. The instructors (strand coordinators) for each topic/strand are listed on the aforementioned spreadsheet.

### Pay Course Fee Bill

Payment for academic credit is a separate, additional cost beyond the Confratute conference registration fee. Summer 2020 fees are as follows: Course fee $2,718.00 for three (3) graduate credits, activity fee $16.00, enrollment fee $45.00, and technology fee of $30.00. These fees will be billed to your UConn account. Complete your credit card or e-check payment online using the student administration system [http://www.studentadmin.uconn.edu/](http://www.studentadmin.uconn.edu/) on or before May 18.

### Financial Aid Students

Applicants for summer financial aid must register for courses (minimum of 6 credits) before they are eligible for aid. Although the summer financial aid application must be submitted before registration, students will not get an award package until they have registered for a minimum of 6 credits. If you plan to register for only one Three Summers course, you must register for Confratute for credit on or before May 18 in order to be eligible. You may make changes to course topic/strand selections in [http://www.studentadmin.uconn.edu/](http://www.studentadmin.uconn.edu/) until Thursday, July 16.

### Non-Financial Aid Students

See “register for credit” instructions above and be sure to register on or before May 18, 2020. You may make changes to course topic/strand selections in [http://www.studentadmin.uconn.edu/](http://www.studentadmin.uconn.edu/) until Thursday, July 16.
